

1969 Index – MATERIALS PROTECTION

The following six pages list the complete Index to the 12 issues of "Materials Protection" published in 1969. Included is an Alphabetical Author Index. Location of information published during 1969 is easy. Simply look in the Alphabetical Subject Index for the subject you want. Then, refer to the issue which is given by month and page number. Information published in "Materials

Protection" is also indexed regularly in "Engineering Index," "Chemical Abstracts," and "Corrosion Abstracts." Bound volumes of these three indexing services are available at most libraries. Reprints of all articles in "Materials Protection" can be obtained at nominal costs. For information, write to NACE, 2400 West Loop South, Houston, Texas 77027.

Contents

January	Page	May	Page	September	Page
Industrial Applications of Furan Resins by C. G. Munger.....	19	NACE Standard TM-01-69, Laboratory Corrosion Testing of Metals for the Process Industries.....	12	NACE Standard RP-01-69, Control of External Corrosion on Underground or Submerged Piping Systems.....	19
Determination of Refinery Corrosion Rates Using the PAIR Technique by R. Paul and W. L. Shirley.....	25	Coatings Symposium—Need for Improved Economics of New Construction Painting by J. M. Fallon.....	29	New Method Developed for Monitoring Automotive Cooling System Corrosion by M. S. Walker and W. D. France, Jr.....	47
Corrosion Nomograph by Adam Zanker.....	31	Role of the Coating Supplier by A. K. Long.....	30	High Density Corrosion Inhibitors Simplify Oil Well Treatments by C. O. Bundrant.....	53
Sulfide Cracking of High Yield Strength Steels in Sour Crude Oils by J. F. Bates.....	33	Role of the Painting Contractor by C. E. Fox.....	32	Tests Determine Effect of Organic Inhibitors on Corrosion Fatigue by G. C. Patton and B. M. Casad.....	56
A Review of Sulfide Corrosion Problems in the Petroleum Industry by Charles M. Hudgins, Jr.....	41	Role of the User by J. R. Allen.....	34	A Polarization Study of Cooling Water Corrosion Inhibitors by D. A. Carter and C. C. Nathan.....	61
Application, Physical Properties, and Chemical Resistance of Chlorinated Rubber Coatings by NACE Task Group T-6B-9 on Chlorinated Rubber.....	48	How Effective Is Cathodic Protection of Stainless Steels in Quiescent Sea Water by T. J. Lennox, Jr., R. E. Groover, and M. H. Peterson.....	41	Four Phenomena Affecting Cathodic Protection and Corrosion Rates by F. W. Hewes.....	67
February	Page	June	Page	October	Page
Innovations and Future of Cathodic Protection by Marshall E. Parker.....	21	Underground Residential Distribution Series Selecting A System to Prevent Corrosion of URD Transformers by D. E. Cooper.....	17	Pressure Vessel Construction—Corrosion Resistant Titanium Clad Steel by E. A. Sticha.....	11
Materials Selection for Piping in Chemically Treated Water Systems by R. W. Lane and C. H. Neff.....	27	Corrosion Aspects of URD in Low Density or Rural Areas by R. L. Holt.....	21	Testing Austenitic Stainless Steels for Modern Refinery Applications by A. S. Couper.....	17
Anodic Protection of Carbon Steel Rail Tank Cars for Transporting Nitrogen Fertilizers by W. P. Banks and Merle Hutchison.....	31	A Review of Methods Used to Combat URD Corrosion Problems by A. M. Lockie.....	23	Criteria for Cathodic Protection of Steel in Concrete Structures by D. A. Hausmann.....	23
Corrosion of Reactor Structural Materials by R. N. Duncan, J. S. Armijo, and A. E. Pickett.....	37	Development and Improvement of the URD System Components by A. W. Arnett.....	27	Sea Water Cooled Condenser Corrosion— Predicting Rates by Polarization Tests by J. J. Meany, Jr.....	27
Comparison of Waterflood Corrosion Detection and Monitoring Devices by R. L. Alvis.....	39	Contributing Factors to Corrosion of URD Transformer Tanks by C. W. Tipps.....	29	Inhibitors in Primers for Aluminum by D. B. Boies, B. J. Northan, and W. P. McDonald.....	30
Chemical Conversion Coatings Retard Corrosion of Beryllium by J. Booker and A. J. Stonehouse.....	43	Corrosion Resistance of E-2 Stainless Steel Tubing in Water Service by L. S. Redmerski and A. Moskowitz.....	33	November	Page
Applying Cathodic Protection to a Paper Making Cylinder by N. E. Hamner.....	48	Research on Notch Plasticity May Contribute to Understanding of Stress Corrosion Cracking by J. W. Spretnak and C. A. Griffith.....	38	Zinc Rich Protective Coatings—Applications by L. J. Nicholas.....	11
Some HVDC Earth Return Hypotheses Challenged by N. E. Hamner.....	50	Stray Current—The Major Cause of Underground Plant Corrosion by L. H. Schwalm and J. G. Sandor.....	39	Dynamic Materials Testing—Aluminum Alloys for Desalination Service by E. D. Verink, Jr.....	13
March	Page	Determining A Standardized Procedure for Evaluation of Automotive Rustproofing Compounds by Ulf Ulfvarson and Kurt Johansson.....	43	Resistance to Sensitization—Test with Austenitic Stainless Steel by T. M. Costello, K. E. Pinnow, and A. Moskowitz.....	15
New Automatic System Optimizes Cooling Tower Corrosion Control by H. Feitler and C. R. Townsend.....	19	Methods Used to Improve Corrosion Resistance of Titanium by H. B. Bomberger and L. F. Plock.....	45	Sacrificial Anode Applications in Ships by G. W. Kurr.....	19
Cooling Tower Chromates—Recovery or Disposal by B. J. Kelly.....	23	July	Page	Cathodic Protection of 19 Aluminum Alloys Exposed to Sea Water—Corrosion Behavior by R. E. Groover, T. J. Lennox, Jr., and M. H. Peterson.....	25
ODASA: Oxygen Scavenger and Inhibitor by A. K. Dunlop, R. L. Howard, and P. J. Railsnider (deceased).....	27	Capline-A Momentous Task Complete by Debbie Knox.....	19	Reducing Corrosion in Domestic Systems— Polyphosphate Inhibitors in Potable Water by G. B. Hatch.....	31
Zinc-Rich Coatings: Characteristics, Applications, and Performance by John D. Keane.....	31	Corrosion Protection of Capline by H. B. Layne.....	23	Underwater Unit Designed for Aligning and Coupling Devices.....	37
Rapid Screening Test Developed to Find Hydrochloric Acid Inhibitors for High Temperature Service by A. W. Coulter and C. M. Smitley.....	37	Mixed String Tests Prove Effective in Evaluating Sucker Rod Performance by W. C. Koger.....	27	December	Page
Corrosion of Metals in Tropical Environments— Part 8 Nickel and Nickel-Copper Alloys by Charles R. Southwell and Allen L. Alexander.....	39	Electronic Data Processing of Equipment Failures—The First Decade by E. D. Junkin, Jr.....	31	Fastener Corrosion—An Expensive Problem by Robert F. Joy.....	63
Trends in Cooling Tower Designs by J. R. Castleberry.....	67	Techniques and Equipment Needed for HVDC Studies by A. W. Peabody.....	37	Experience with Copper Alloy in Desalting En- vironments by A. Cohen and LaVerne Rice.....	67
April	Page	Developments in Portable Detectors for Locating Underground Pipeline Holidays by G. B. Wren.....	43	Unpainted High Strength SOW Alloy Steel by R. J. Schmitt and W. P. Gallagher.....	70
Inorganic Zinc Primers: Effect of Porosity on Coverage by J. F. Montle.....	21	August	Page	Materials for Waste Water Treatment by J. P. Creagh.....	78
Additives Prevent Corrosion of Zinc in Sulfurous Acid by W. McLeod and R. R. Rogers.....	25	The Legal Aspects of Corrosion Control by W. L. N. Somerville.....	19	A Study of Abrasive Blasted Surfaces and Their Effect on Paint Thickness by H. G. Daniel.....	83
Performance of Commercially Pure Titanium in Corrosive Soils by B. T. Sanderson and M. Romanoff.....	29	Dielectric Shields for Cathodic Protection Applications by I. Geld, M. A. Acampora, and W. L. Miller.....	23		
Titanium Alloys: Stress Corrosion Susceptibility to Fuel Tank Sealants by C. F. Barth and E. A. Steigerwald.....	33	Examining Causes of Aluminum Corrosion by H. P. Godard.....	25		
Linear Polarization Instruments Provide Key to Corrosion Problem in Reactor by W. C. Baker and C. R. Bergen.....	39	Corrosion Inhibitors in High Temperature Acid Applications by L. A. McDougall.....	31		
Corrosion and Corrosion Control of Aircraft Integral Fuel Tanks by NACE Task Group T-9C-3 and Issued by NACE Technical Unit Committee T-9C on Fuel Systems Corrosion.....	43	Alloy Selection for Hydrocarbon Reformer Furnaces by Jack Tielrooy.....	33		
		Corrosion Protection of High Strength Landing Gear Components by NACE Technical Unit Committee T-9B on Protective Systems for Materials (Military Equipment).....	37		
		Influence of Temperature on Galvanic Corrosion by D. P. Doyle and H. P. Godard.....	40		

Alphabetical Subject Index

MATERIALS PROTECTION

Volume 8, 1969

A

ACID

Chlorinated rubber coatings, chemical resistance to, Jan 48
Chemical corrosion, fourdrinier wire, Aug 51
Effect on furan resins, Jan 19
Hydrochloric, inhibitors for high temperature service, Mar 37
Inhibitors in high temperature applications, Aug 31
Mercaptoacetic, corrosion monitoring in oil field waters, May 49
Nonoxidizing, effects on titanium, Jun 45
Sulfuric, corrosion monitoring in oil field waters, May 49
Sulfuric, effect on chromate in cooling towers, Mar 23
Sulfurous, additives prevent corrosion of zinc in, Apr 25

AIRCRAFT

Corrosion and corrosion control of integral fuel tanks, Apr 43
Corrosion protection of high strength landing gear components, Aug 37
Air pollution, contribution of sulfur dioxide to atmospheric corrosion, Jan 41
Alkalies, effect on chlorinated rubber coatings, Jan 48
Alkalies, effect on furan resins, Jan 19

ALUMINUM

A-C corrosion effects on, Sept 67
Alloys, effects of process variables on, desalination service, Nov 13
Alloys exposed to sea water, cathodic protection of, Nov 25
Anodes, applications in ships, Nov 19
Anodes, cathodic protection of stainless steels in quiescent sea water, May 41
Anodes, steel piling corrosion control studied by the National Bureau of Standards, Jul 51
Bronze alloys, corrosion of metals in tropical environments, Mar 39
Cast, cooling tower construction, Mar 67
Coatings, fastener applications, Dec 63
6061, corrosion of metals in tropical environments, Mar 39
Examining causes of corrosion of, Aug 25
Inhibitors in primers for, Oct 30
Tested in ethylene glycol corrosive water solutions, Sept 47
Underground or submerged piping systems, criteria for cathodic protection of, Sept 19

ANODES

Aluminum, zinc, steel pilings studied by the National Bureau of Standards, Jul 51
Anodic protection of carbon steel rail tank cars for transporting nitrogen fertilizers, Feb 31
Cathodic protection of aluminum alloys exposed to sea water, Nov 25
Cathodic protection of stainless steels in quiescent sea water, zinc, magnesium, aluminum, steel, May 41
Corrosion of metals in tropical environments, nickel and nickel-copper alloys, Mar 39

Deep well, Feb 21
Dielectric shields, cathodic protection applications, Aug 23
Galvanic, impressed current, packaged, defined, installation of, protection of underground or submerged metallic pipe, Sept 19
Impressed current, adhesive bonding of, dielectric shields for cathodic protection, Aug 23
Magnesium, insurance galvanic, Jul 23
Magnesium, aluminum, galvalum, zinc, applications in ships, Nov 19
Magnesium, underground residential distribution systems, Jun 17
Titanium, cathodic polarization of cast iron cylinder of paper making machine, Feb 49

ATMOSPHERIC CORROSION

Nickel-copper alloys, Mar 39
Automobiles, evaluation of rust-proofing compounds, Jun 43
Automotive cooling system corrosion rate measurement, Sept 47
Low alloy steel for architectural applications, Dec 70

B

Beryllium, chemical conversion coatings retard corrosion of, Feb 43
Boron, additions to 304 stainless, corrosion test and metallographic studies, Nov 15
Brass, wrought, tested in ethylene glycol corrosive water solutions, Sept 47

C

Cable, underground residential distribution systems, Jun 27

CATHODIC PROTECTION

Anodes, applications in ships, Nov 19
Buried structures, effect of electro-osmosis, coating holiday size, a-c discharge, underfilm moisture, Sept 67
Capline pipeline system, Jul 23
Corrosion behavior of 19 aluminum alloys exposed to sea water, Nov 25
Corrosion of metals in tropical environments, nickel and nickel-copper alloys, Mar 39
Defined, objectives of, design, installation, maintenance, control of external corrosion on underground or submerged metallic piping systems, Sept 19
Dielectric shields, Aug 23
Effects of cracking tendencies of austenitic stainless steel, Oct 17
Innovations and the future of, of underground structures, Feb 21
Low alloy steels, architectural applications, Dec 70
Paper making cylinder, Feb 49
Stainless steels in quiescent sea water, May 41
Steel in concrete structures, Oct 23
Steel pilings studied by the National Bureau of Standards, Jul 51
Underground residential distribution systems, Jun 17
Cements, brick and tile, application of furan resins, Jan 19
Ceramic tile floors, application of furan, Jan 19

CHEMICAL PROCESS

Alloy selection for hydrocarbon reformer furnaces, Aug 23
Economics in new construction painting, May 29
Linear polarization instruments, Apr 39
Petrochemical plants, titanium clad steel for pressure vessel construction, Oct 11
Pitting corrosion by mercury in aluminum tank, Aug 25
Polyethylene pressure pipe, Apr 51
Chemical tank, application of furan, Jan 19
Chloride, causes of aluminum corrosion, Aug 25
Chloride, ethyl, linear polarization instruments identify corrosion problems in reactor, Apr 39
Chlorides, presence of, underground residential distribution systems, Jun 17

CLEANING

Abrasive blasted surfaces, effect on paint thickness, Dec 83
Low alloy steel for exterior architectural applications, Dec 70
Pipe blast, new machine, May 57
Preparation for chemical conversion coatings, Feb 43
Zinc shot blasting, Mar 31

COATINGS, INORGANIC

Chemical conversion; chromate, phosphate-chromate, oxalate, phosphate, Feb 43
Zinc, effect of porosity on coverage, Apr 21
Zinc-potassium and cadmium-potassium, for aluminum, Oct 30
Zinc-rich, applications, Nov 11
Zinc-rich, characteristics, applications, performance of, Mar 31
Zinc rich, fastener applications, Dec 63

COATINGS, METALLIC

Aluminum, hot dip zinc, fastener applications, Dec 63
Cadmium, zinc, aluminum, effects on adhesion of organic coatings in service, Aug 37

COATINGS, ORGANIC

Chlorinated rubber, application techniques, physical properties, chemical resistance, Jan 48
Chromate-based primers for aluminum, Oct 30
Coal tar, asphalt, wax, prefabricated films, thin-film, material requirements, application to underground or submerged metallic piping systems, Sept 19
Definition, composition, physical properties of chlorinated rubber, Jan 48
Dielectric shields, cathodic protection applications, Aug 23
Epoxy, solvent vinyl, chlorinated rubber, polyurethane, acrylic, coal tar, asphaltic, zinc rich, silicone, alkyds, May 30
Furan industrial applications, Jan 19
Paint systems for commercial aircraft landing gear, Aug 37
Phenolic, fastener applications, Dec 63
Polyester, glass reinforced, internal protection for Capline, Jul 23
Zinc-rich, applications, Nov 11
Zinc-rich characteristics, applications, performance of, Mar 31

Columbium, addition to 304 stainless, corrosion tests and metallographic studies, Nov 15
Concentration cell corrosion, fourdrinier wire, Aug 51
Concentration cell, underground residential distribution system, Jun 17

CONCRETE

Construction materials for waste water treatment works, Dec 78
Cooling tower construction, Mar 67
Furan, industrial applications, Jan 19
Galvanic corrosion of aluminum in, Aug 25
Locating coating failures under, Jul 43
Outer jacket on pipeline, Jul 23
Structures, cathodic protection of steel in, Oct 23
Condenser tubes in sea water service, predicting rates by polarization tests, Oct 27
Cooling system, automotive, monitoring corrosion rates, Sept 47
Cooling towers, automatic system optimizes corrosion control in, Mar 19
Cooling towers, chromate recovery and chromate reduction process, Mar 23
Cooling tower, corrosion rate determination, Jan 25
Cooling tower, materials selection for, Feb 27
Cooling towers, trends in construction of, Mar 67
Cooling water, polarization study of corrosion inhibitors, Sept 61

COPPER

A-C corrosion effect on, Sept 67
Alloy in desalting environments, Dec 67
Alloys, cooling tower construction, Mar 67
Alloys, corrosion in salt water, Nov 13
Causes of aluminum corrosion, Aug 25
Corrosion of metals in tropical environments, Mar 39
Fittings, in water service, Jun 33
Nickel alloys, corrosion of metals in tropical environments, Mar 39
Nickel alloy, iron modified, performance in cooling water, Sept 72
Underground or submerged piping systems, criteria for cathodic protection of, Sept 19
Corrosion rate in automotive cooling systems, linear polarization measurement, Sept 47
Corrosion rate, measurement of; underground or submerged metallic piping systems, Sept 19
Coupons, effect on efficiency of inhibitors, Aug 31
Crevice corrosion, illustrated, stainless steels in quiescent sea water, May 41
Chromates, recovery from cooling tower blowdown streams, Mar 23
Crude unit, corrosion rate determination, Jan 25

D

Data processing of equipment failures, Jul 31
Denickelification, tube alloys cooled by river water, Sept 72

Desalination environments, copper alloy in, Dec 67
Desalination service, aluminum alloys for, Nov 13

DESIGN

Capline, rectifiers, ground beds, Jul 23
Cathodic protection systems for underground or submerged metallic pipe, Sept 19
Cooling tower construction, Mar 67
Equipment, chromate reduction and chromate recovery from cooling tower blowdown streams, Mar 25
Hydrocarbon reformer furnace tubes, Aug 33
Dezincification, mechanism, fourdrinier wire, Aug 51
Dezincification, tube alloys cooled by river water, Sept 72
Dielectric shields, cathodic protection applications, Aug 23
Drilling operations, sulfide stress cracking, Jan 41

E

ECONOMICS

Aluminum alloys for desalination service, Nov 13
Anodic protection of carbon steel rail tank cars for transporting nitrogen fertilizers, Feb 31
Cathodic protection, Feb 21
Chromate reduction and chromate recovery processes, cooling towers, Mar 23
Control of external corrosion on underground or submerged metallic piping systems, Sept 19
Cooling tower controller, Mar 19
In new construction painting, May 29
Protective systems, selection of, Mar 31
Zinc-rich protective coatings vs galvanizing; shop coating, top-coating advantages, Nov 11

ELECTRICAL CURRENT

A-C discharge, effect on underground corrosion rates and cathodic protection, Sept 67
Cathodic protection of steel in concrete structures, Oct 23
Causes of aluminum corrosion, Aug 25
Corrosion of underground residential distribution system transformers, Jun 17
Corrosion resistance of E-2 stainless steel tubing in water service, Jun 33
Electrode potentials, aluminum alloys exposed to sea water, Nov 25
HVDC earth return hypotheses challenged, Feb 50
HVDC effects on underground structures, Feb 21
HVDC, techniques and equipment for studies of, Jul 37
Line, stray, interference, interference bond, potential, polarization, underground or submerged metallic piping systems, Sept 19
Polarization studies, inhibitors in primers for aluminum, Oct 30
Portable detectors for locating pipeline holidays, Jul 43
Stray, major cause of underground plant corrosion, Jun 39
Stray, source of, Jul 37
Electrode, defined, application of, underground or submerged metallic piping systems, Sept 19
Electrodeposition, polyphosphate inhibitors in potable water, Nov 31
Electrolyte, defined, effect on underground or submerged metallic piping systems, Sept 19
Electroplating, cadmium coatings, aircraft landing gear applications, Aug 37
Erosion, fourdrinier wire, Aug 51

F

Fasteners, cooling tower construction, Mar 67
Fatigue, effect of organic inhibitors on, Sept 56
Fatigue, mechanism, fourdrinier wire, Aug 51
Fats and oils, effect on chlorinated rubber coatings, Jan 48
Fertilizer solutions, corrosion rates in, Feb 31
Film thickness, defined, measurement of, effect of abrasive blasting on, Dec 83
Flooring, application of furan resins, Jan 19
Formaldehyde, inhibitor in sulfuric acid, Apr 25

Fourdrinier paper making machine, corrosion of wire belt, Aug 51
Fretting, fourdrinier wire, Aug 51
Furan resins, industrial applications, Jan 19

G

Galvalum anodes, applications in ships, Nov 19
Galvanic corrosion, mechanism, fourdrinier wire, Aug 51
Galvanic corrosion cells, underground residential distribution systems, Jun 17
Galvanic corrosion, corrosion resistance of E-2 stainless steel tubing in water service, Jun 33
Galvanic corrosion of aluminum in sea water, in concrete, of aluminum railing bolts, Aug 25
Gas processing, corrosion problems, Jan 41
Gas wells, high density inhibitors, Sept 35
Grain boundary corrosion, austenitic stainless and high purity alloys susceptibility to, Feb 37

H

Hexamine, inhibitor in sulfurous acid, Apr 25

HIGH TEMPERATURE

Chromate conversion coating, beryllium, Feb 43
Corrosion in refineries, Jan 41
Effect on fourdrinier wire corrosion, Aug 51
Effect of hydrocarbon reformer inlet and outlet headers, Aug 33
Effects on titanium, Jun 45
Effects on underground residential distribution systems, Jun 17
Hydrochloric acid inhibitors, Mar 37
Inhibitors in acid applications, Aug 31
Stress corrosion susceptibility of titanium alloys in contact with fuel tank sealants, Apr 33
Holiday size, effect on underground corrosion and cathodic protection, Sept 67

HVDC

Earth return hypotheses challenged, Feb 50
Techniques and equipment for studies of, Jul 37
Underground metallic structures, Feb 21
Hydrocarbon reformer furnaces, alloy selection for, Aug 33
Hydrocracking process, Aug 33
Hydrogen embrittlement, protection of high strength steel landing gear from, Aug 37
Hydrogen evolution, corrosion of aluminum under a noninhibitive primer, Oct 30
Hydrogen sulfide corrosion, refineries, Jan 41
Hydrogen sulfide stripping system, corrosion rate determination, Jan 25

I

Impregnating material, application of furan resins, Jan 19

INHIBITORS

Additives prevent corrosion of zinc in sulfuric acid, Apr 25
Chromate-based, organic or metallo-organic, in primers for aluminum, Oct 30
Cooling tower chromates, Mar 23
Corrosion resistance of titanium, Jun 45
Effect on metal corrosion in ethylene glycol-corrosive water solutions, Sept 47
Effect on stress corrosion cracking, stainless steel, Oct 17
Evaluation of, high temperature acid applications, Aug 31
High density liquid, oil and gas wells, advantages of, treating procedures, field usage, Sept 53
Hydrochloric acid, for high temperature service, Mar 37
Inorganic, molybdate, silicate, polyphosphate, chromate, polarization study of, Sept 61
Odaa for annular salt water disposal systems, Mar 27
Organic, effect on corrosion fatigue, Sept 56
Organic, orthophosphate, pyrophosphate esters of organic alcohols, polarization study of, Sept 61
Polyphosphate, in potable water, Nov 31
Injection systems, corrosion inhibitor and oxygen scavenger for, Mar 27

Inorganic zinc primers, effect of porosity on, Apr 21

INSTRUMENTS

Anotrol Model 5300 potential controller, Feb 31
Automatic system optimizes cooling tower corrosion control, Mar 19
Cathodic protection cell, Oct 23
Film thickness measurement, Dec 83
HVDC studies, techniques and equipment, Jul 37
ISWS corrosion tester, Feb 27
Linear polarization, identify corrosion problems in ethyl chloride reactor, Apr 39
PAIR corrosion rate meter, Jan 25
Portable detectors for locating pipeline holidays, Jul 43
Waterflood corrosion detection and monitoring devices, Feb 39
Iron, cast and ductile, cooling tower construction, Mar 67
Iron, cast, construction materials for waste water treatment works, Dec 78
Iron, cast, tested in ethylene glycol corrosive water solutions, Sept 47
Iron, cast, underground or submerged piping systems criteria for cathodic protection of, Sept 19

L

Low temperature corrosion, refineries, Jan 41

M

MAGNESIUM

Anodes, applications in ships, Nov 19
Anodes, cathodic protection of stainless steels in quiescent sea water, May 41
Anodes, underground residential distribution systems, Jun 17

MANAGEMENT

Electronic data processing of equipment failures, Jul 31
Improved economics in new construction painting, May 29
Materials selection for piping in chemically treated water systems, Feb 27
Materials selection, waste water treatment works, Dec 78

MECHANISMS

Chromate-based pigments inhibit corrosion, Oct 30
Electro-osmosis, Sept 67
Hydrocracking process, Aug 33
Pitting, dezincification, fatigue, stress corrosion cracking, galvanic corrosion, Aug 51

METALLURGY

Austenitic stainless steel, effects of compositional variations on susceptibility to sensitization in welding and stress relieving, Nov 15
Austenitic stainless steels, testing, refinery applications, Oct 17
Nickel and nickel-copper alloys, corrosion in tropical environments, Mar 39
Stainless steels, cathodic protection in quiescent sea water, May 41
Titanium alloys, stress corrosion susceptibility, Apr 33

METALS, EXCEPTIONAL

Beryllium, chemical conversion coatings retard corrosion of, Feb 43
Borax additions to 304 stainless, corrosion tests and metallographic studies, Nov 15
Columbium additions to 304 stainless, corrosion tests and metallographic studies, Nov 15
Mercury, causes of aluminum corrosion, Aug 25
Titanium, alloy performance in cooling water, Sept 72
Titanium, commercially pure, performance in corrosive soils, Apr 29
Titanium content, E-2 stainless steel, Jun 33
Titanium, methods to improve corrosion resistance of, alloying with palladium or molybdenum, Jun 45
Titanium, stress corrosion susceptibility to fuel tank sealants, Apr 33
Microbiological contamination, aircraft fuel tanks, Apr 43
Monel, corrosion of metals in tropical environments, Mar 39

N

NACE REPORTS

Technical committee report—Application techniques, physical properties, and chemical resistance of chlorinated rubber coatings, (T-6B), Jan 48
Technical committee report—Corrosion and corrosion control of aircraft integral fuel tanks (T-9C), Apr 43
Technical committee report—Corrosion protection of high strength landing gear components (T-9B), Aug 37
Technical committee report—NACE Standard RP-01-69, control of external corrosion in underground or submerged metallic piping systems, Sept 19
Technical committee report—NACE Standard TM-01-69, laboratory corrosion testing of metals for the process industries, May 13
NICKEL
Copper alloy in desalting environments, Dec 67
Copper alloy, iron modified, performance in cooling water, Sept 72
Incoloy 800, hydrocarbon reformer tube materials, Aug 33
Copper alloys, corrosion of metals in tropical environments, Mar 39
Silver, corrosion of metals in tropical environments, Mar 39
Nomograph, corrosion, Jan 31

O

OFFSHORE

Analyzing oil field waters, corrosion monitoring, May 49
Electrode in open ocean, Feb 50
Steel pilings studied by National Bureau of Standards, Jul 51
Oil field, corrosion monitoring method for analyzing waters, May 49
Oils, effect on furan resins, Jan 19
Oxalate, inhibitor in sulfuric acid, Apr 25
Oxide, determination of film thickness, Aug 25
Oxidizing agents, effect on chlorinated rubber coatings, Jan 28
Oxidizing conditions, effect on furan resins, Jan 19

P

PAIR technique refinery corrosion rate determination, Jan 25
Paper making machine, corrosion of fourdrinier wire, Aug 51

PETROLEUM PRODUCTION

Analyzing oil field waters, corrosion monitoring, May 49
Effect of organic inhibitors on corrosion fatigue of mild steel in simulated oil field environment, Sept 56
Evaluating sucker rod performance, Jul 27
Hydrocracking process, alloy selection for hydrocarbon reformer furnaces, Aug 33
Oil wells, high density inhibitors, advantages of, treating procedures, field usage, Sept 53
Portable detectors for locating pipeline holidays, Jul 43
Refinery corrosion rates, Jan 25
Sulfide cracking of high yield strength steels in sour crude oils, Jan 33
Sulfide stress cracking during drilling operations and production, Jan 41
Phosphates, inhibitor in sulfuric acid, Apr 25
Pipe, largest polyethylene, Apr 51
Pipe, new blast cleaning machine, May 57

PIPELINES

Aligning and coupling, underwater unit designed for, Nov 37
Capline, corrosion protection and preventive maintenance programs, Jul 19
Cathodic protection of, Feb 21
Crude oil, corrosion, Jan 41
Portable detectors for locating holidays, Jul 43
Underground, submerged, control of external corrosion, Sept 19
Piping, polyethylene, construction materials for waste water treatment works, Dec 78
Piping in chemically treated water systems, materials selection for, Feb 27

Piping systems, metallic, underground or submerged, corrosion control, Sept 19

PITTING

Aluminum, Aug 25
Beryllium, Feb 43
Carbon steel and titanium exposed to corrosive soils, Apr 29
Corrosion of metals in tropical environments, nickel and nickel-copper alloys, Mar 39
Mechanism, foundry wire, Aug 51
Stainless steels in quiescent sea water, May 41
Steel lines in closed injection systems, Mar 27
Tube alloys cooled by river water, Sept 72
Underground residential distribution systems, Jun 17
Pumps, application of furan coating to base, Jan 19

PLASTICS

Coated electrical conduit, Capline, Jul 23
Cooling tower construction materials, Mar 67
Polyethylene, largest pipe installed, Apr 51
Plasticity, notch, stress corrosion cracking, Jun 38
Polarization, defined, protection of underground or submerged metallic piping systems, Sept 19
Potable water, polyphosphate inhibitors in, Nov 31
Polarization, effects on load carrying capacity of stainless steel, May 41
Polarization, linear, monitoring low corrosion rates in automotive cooling systems, Sept 47
Polarization, potentiodynamic, study of cooling water corrosion inhibitors, Sept 61
Polarization tests, condenser tubes in sea water service, Oct 27
Polarization tests, inhibitors in primers for aluminum, Oct 30
Polyethylene, largest pipe installed, Apr 51
Polyethylene lines, waste water treatment works, Dec 78
Polyphosphate inhibitors in potable water, Nov 31
Potassium ferrioxalate, inhibitor in sulfuric acid, Apr 25
Primers, inorganic zinc, effect of porosity on coverage, Apr 21
Primers, multipurpose, May 30
Primers, preconstruction, temporary, universal, multicoat, May 36
Process, chromate recovery and chromate reduction, Mar 23

R

Railings, aluminum, Aug 25
Railways, source of stray current, Jun 39
Reactor, ethyl chloride, linear polarization instrument identifies corrosion problem in, Apr 39
Reactor structural materials, corrosion of, Feb 37
Rectifiers, selenium vs silicon constant current, automatic control, submersible, Feb 21

REFINERY INDUSTRY

Alloy selection for hydrocarbon reformer furnaces, Aug 33
Determination of corrosion rates, Jan 25
Gas processing, corrosion problems, Jan 41
High and low temperature corrosion, Jan 41
Improved economics in new construction painting, May 29
Liability, accidents resulting from corrosion, Aug 19
Linear polarization instruments identify corrosion problem in ethyl chloride reactor, Apr 39
Minimizing stress corrosion cracking, austenitic stainless steels, Oct 17
Performance of tube alloys cooled by brackish river water, Sept 72
Petrochemical plants, titanium clad steel for pressure vessel construction, Oct 11
Polyethylene pressure pipe, Apr 51
Sulfide corrosion problems, Jan 41
Sulfide cracking of high yield strength steels in sour crude oils, Jan 33
Resins, characteristics of furan, Jan 19

Rustproofing, evaluation of compounds for automotive bodies, Jun 43

S

Safety, legal aspects of corrosion control, Aug 19
Salt solution, effect on chlorinated rubber coatings, Jan 48
Salt solutions, effect on furan resins, Jan 19

SEA WATER

Aluminum alloys for desalination service, Nov 13
Cathodic protection of 19 aluminum alloys exposed to, Nov 25
Condenser tubes in, predicting rates by polarization tests, Oct 27
Corrosion of metals in tropical environments, nickel and nickel-copper alloys, Mar 39
Effect on aluminum, inhibitors in primers for aluminum, Oct 30
Galvanic corrosion of aluminum in, Aug 25
Handling, oil and gas production, Jan 41
Natural, dielectric shields for cathodic protection applications tested in, Aug 25
Quiescent, cathodic protection of stainless steels in, May 41
Synthetic, testing binary alloys in, Jun 45

SHIPS

Sacrificial anode applications, Nov 19
Towboat, stainless steel clad hull uncorroded after two years' service, Jul 54
Shop coating, zinc-rich coatings, Nov 11
Shop priming, economics, applications, May 36
Silicon-bronze alloys, cooling tower construction, Mar 67
Sodium oxalate, inhibitor in sulfuric acid, Apr 25
Soil resistivity, underground residential distribution systems, Jun 29
Solder, tested in ethylene glycol corrosive water solutions, Sept 47
Solvents, effect on chlorinated rubber coatings, Jan 48
Specifications, underground residential distribution systems, Jun 21
Steam condensate system corrosion, rate determination, Jan 25
Steam hydrocarbon reforming, hydrocracking process, alloy selection for reformer furnaces, Aug 33

STEEL

A-C corrosion effect on, Sept 67
Austenitic stainless and high purity alloys, susceptibility to grain boundary corrosion, Feb 37
Austenitic stainless, cooling tower construction, Mar 67
Austenitic stainless, effects of compositional variations on susceptibility to sensitization in welding and stress relieving, Nov 15
Austenitic stainless, minimizing stress corrosion cracking of, Oct 17
Bare, aluminum coated, aluminum-zinc coated, cadmium plate with chromate conversion coating adhesion test results, Aug 37
Cadmium coated, cooling tower construction, Mar 67
Carbon, anodic protection of, Feb 31
Carbon, low alloy, pilings studied by National Bureau of Standards, Jul 51
Carbon manganese sucker rod performance, Jul 27
Carbon, performance in corrosive soils, Apr 29
Cast stainless, protection of equipment surfaces, Jun 57
E-2 stainless, corrosion resistance in water service, Jun 33
Galvanized, painting of, Mar 31
High strength landing gear components, corrosion protection of, Aug 37
Hot dip galvanized, cooling tower construction, Mar 67
In concrete structures, cathodic protection of, Oct 23
Mild, corrosion fatigue performance of, effect of organic inhibitors on, Sept 56
Mild, effect of inorganic and organic inhibitors in simulated

cooling water, Sept 61

Mild, tank material, underground residential distribution systems, Jun 17
Monel, corrosion of metals in tropical environments, Mar 39
Painting, handling, drying, stacking, May 36
Stainless, cathodic protection in quiescent sea water, May 41
Stainless, construction materials for waste water treatment works, Dec 78
Stainless, effects of sulfide on, in sour crude, Jan 33
Stainless hydrocarbon, reformer tube materials, Aug 33
Stainless, tank material, underground residential distribution systems, Jun 17
Stainless, towboat hull constructed of, Jul 54
Sucker rod performance, Jul 27
Titanium clad, pressure vessel construction, Oct 11
Unpainted, high strength, low alloy, architectural applications, Dec 70

STRESS CORROSION

Cracking, austenitic stainless steels for modern refinery applications Oct 17
Cracking, protection of high strength steel landing gear from, Aug 37
Improperly heat treated aluminum alloy bolts, Aug 25
Mechanism, foundry wire, Aug 51
Notch plasticity research, Jun 38
Sulfide cracking of high yield strength steels in sour crude oils, Jan 33
Titanium alloys in contact with fuel tank sealants, Apr 33
Solvents, effect on furan resins, Jan 19
Sucker rods, mixed string tests prove effective in evaluating performance of, Jul 27
Sulfate, causes of aluminum corrosion, Aug 25
Sulfide cracking of high strength steels in sour crude, Jan 33
Sulfur and its compounds in petroleum, Jan 41
Sulfur corrosion, refineries, Jan 41

SURFACE PREPARATION

Abrasive blasted surfaces, effect on paint thickness, Dec 83
Application of chlorinated rubber coatings, Jan 48
Application of zinc-rich coatings, Mar 31
Chemical conversion coatings retard corrosion of beryllium, Feb 43
Pickling, blasting, May 36
Zinc-rich protective coatings, Nov 11

T

TANKS

Aluminum, pitting corrosion by mercury, Aug 25
Application of furan, Jan 19
Ballast, internal protection of, Nov 19
Internal protection, Capline, Jul 23
Materials, mild steel, stainless steel, underground residential distribution systems, Jun 17
Nonmetallic, underground residential distribution systems, Jun 23
Nylon reinforced, synthetic rubber, storage of pollution, waste, transformer oil, fertilizer, Sept 79

TESTING, FIELD

Aluminum alloys for desalination service, Nov 13
Analyzing oil field waters, corrosion monitoring, May 49
Anodic protection of carbon steel rail tank cars for transporting nitrogen fertilizers, Feb 31
Coating, mechanical impact, cathodic disbondment, water absorption, underground residential distribution systems, Jun 17
Comparison of waterflood corrosion detection and monitoring devices, Feb 39
Cooling tower corrosion rate measurements, Jan 25
Corrosion resistance of E-2 stainless steel in water service, Jun 33
Evaluating sucker rod performance, mixed string tests, Jul 27

Evaluation of automotive rust-proofing compounds, Jun 43
Fastener corrosion, oil refinery and steel mill exposures, Dec 63
HVDC studies, techniques and equipment, Jul 37
ISWS corrosion tester, operation of, Feb 27
Linear, polarization instruments identify corrosion problem in reactor, Apr 39
Low alloy steels for architectural applications, Dec 70
Odasa inhibitor in annular salt water disposal systems, Mar 27
Performance of tube alloys cooled by river water, Sept 72
Portable detector for locating pipeline holidays, Jul 43
Steel pilings studied by the National Bureau of Standards, Jul 51
Sulfide cracking of high yield strength steels in sour crude oils, Jan 33
Titanium, commercially pure, performance in corrosive soils, Apr 29

TESTING, LABORATORY

Additives prevent corrosion of zinc in sulfuric acid, Apr 25
Aluminum alloys for desalination service, Nov 13
Analyzing oil field waters, corrosion monitoring, May 49
Anodic protection of carbon steel rail tank cars for transporting nitrogen fertilizers, Feb 31
Austenitic stainless steel, resistance to sensitization, Nov 15
Brazing, roll, explosion bonding techniques, titanium clad steels, Oct 11
Cathodic protection of 19 aluminum alloys exposed to sea water, Nov 25
Cathodic protection of stainless steels in quiescent sea water, May 41
Cathodic protection of steel in concrete structures, Oct 23
Chemical conversion coatings retard corrosion of beryllium, Feb 43
Cooling tower corrosion rate measurements, Jan 25
Corrosion nomograph, Jan 31
Corrosion of reactor structural materials, Feb 37
Corrosion resistance of E-2 stainless steel in water service, Jun 33
Dielectric shields, cathodic protection applications, Aug 23
Effect of organic inhibitors on corrosion fatigue, Sept 56
Evaluation of automotive rust-proofing compounds, Jun 43
Inhibitors in high temperature acid applications, Aug 31
Inhibitors in primers for aluminum, Oct 30
Linear polarization instruments identify corrosion problem in reactor, Apr 39
Linear polarization, monitoring automotive cooling system corrosion, Sept 47
Low alloy steels for architectural applications, Dec 70
Odasa inhibitor in annular salt water disposal systems, Mar 27
Polarization measurements, condenser tubes in sea water service, Oct 27
Potentiodynamic polarization, study of cooling water corrosion, Sept 61
Screening test to find hydrochloric acid inhibitors for high temperature service, Mar 37
Stress corrosion cracking of austenitic stainless steels, Oct 17
Stress corrosion susceptibility of titanium alloys in contact with fuel tank sealants, Apr 33
Sulfide cracking of high yield strength steels in sour crude oils, Jan 33
X-ray fluorescence, X-ray diffraction, examining causes of aluminum corrosion, Aug 25

TITANIUM

Alloy performance in cooling water, Sept 72
Alloys, stress corrosion susceptibility to fuel tank sealants, Apr 31
Anodes, cathodic polarization of cast iron cylinder of paper making machine, Feb 49
Cathodic protection of paper making cylinder, Feb 49
Clad steel, pressure vessel construction, Oct 11

Commercially pure, performance in corrosive soils, Apr 29
Corrosion resistance of E-2 stainless steel, Jun 33
Methods to improve corrosion resistance of, Jun 45
Topcoating, zinc-rich coatings, Nov 11
Transformers, underground residential distribution systems, Jun 17
Tubing, E-2 stainless steel, corrosion resistance in water service, Jun 33

U

UNDERGROUND CORROSION
Cathodic protection of underground structures, Feb 21
Control of, metallic piping systems, Sept 19
Effect of electro-osmosis, coating holiday size, a-c discharge, underfilm moisture, Sept 67
HVDC effects on underground structures, Feb 21
HVDC, techniques and equipment for studies of, Jul 37
Portable detectors for locating pipeline holidays, Jul 43

Stray current, major cause of, Jun 39
Titanium, commercially pure, performance in corrosive soils, Apr 29
Underground residential distribution systems, Jun 17

W

WATER

Aircraft fuel system, microbiological contamination, Apr 43
Annular salt water disposal systems; Odasa oxygen scavenger and inhibitor, Mar 27
Automatic system optimizes cooling tower corrosion control, Mar 19
Brackish river, performance of tube alloys cooled by, Sept 72
Chemically treated systems, materials selection for piping, Feb 27
Comparison of waterflood corrosion detection and monitoring devices, effect of oxygen and carbon dioxide on corrosion rate, Feb 39
Cooling, polarization study, effect of inhibitors on, Sept 61

Copper Alloy in desalting environments, Dec 67
Corrosion of metals in tropical environments, nickel and nickel-copper alloys, Mar 39
Corrosion resistance of E-2 stainless steel tubing, Jun 33
Effect of electro-osmosis on cathodic protection and corrosion rates, Sept 67
Effect on furan resins, Jan 19
Effects on the process stream, in-leakage, Apr 39
Handling in the oil field, corrosion damage, Jan 41
Hydrogen saturated, cast iron tested in, Sept 47
Immersion, underground residential distribution systems, Jun 17
Industrial and domestic waste, treatment of, Dec 78
Oil field, corrosion monitoring method, May 49
Potable, polyphosphate inhibitors in, Nov 31
Quiescent sea, cathodic protection of stainless steels in, May 41
Refinery cooling, corrosion rate measurements, Jan 25
Welds, braze, roll, and explosion bonding, titanium clad steels, Oct 11

Welds, corrosion resistance of E-2 stainless steel in water service, Jun 33
Wire, fourdrinier, corrosion of, Aug 51

X

X-ray fluorescence, X-ray diffraction, examining causes of aluminum corrosion, Aug 25

Z

ZINC

Additives prevent corrosion of, in sulfuric acid, Apr 25
Anodes, applications in ships, Nov 19
Anodes, cathodic protection of stainless steels in quiescent sea water, May 41
Anodes, steel pilings studied by the National Bureau of Standards, Jul 51
Coatings, fastener applications, Dec 63
Corrosion of metals in tropical environments, Mar 39
Inhibition in potable water, polyphosphates contrasted to, Nov 31
Inorganic primers, effect of porosity on, Apr 21
Protective coatings, applications, Nov 11

Want to Submit a Paper for Publication?

Technical manuscripts submitted for publication in **MATERIALS PROTECTION** should (1) present new or unpublished information, (2) present a hypothesis or theory not generally known or understood, (3) generalize and correlate published information, and (4) be of sufficient general interest and value.

Subject matter may concern one or more of the following: (1) deterioration of materials by corrosion, (2) characteristics of corrosive environments, (3) methods used to prevent corrosion, (4) instruments used in corrosion investigations, (5) analytical and statistical methods used in cor-

rosion studies, (6) economics of corrosion control, (7) deterioration and its control in nonmetallic materials, and (8) organization and administration of corrosion control programs.

Manuscripts to be considered for publication should be submitted in triplicate to the Publications Department, NACE, 2400 West Loop South, Houston, Texas 77027. Manuscripts are reviewed by the journal's technical advisers and Editor. The reviewers consider such factors as timeliness of the subject matter, thoroughness of documentation, and the nature of the subject. Final decision for publication of a manuscript rests with the Editor.
